

TOMORROW'S ENERGY WORLD

20 April 2010

Piazza Suites 1-3, NEC, Birmingham

This Morning's Programme

- 09.30 Registration, Coffee and Networking
- 10.00 **What are the key concerns of Major Energy Users? The results of the latest MEUC survey.**
Andrew Buckley, Director General, Major Energy Users' Council
- 10.15 **What's going to happen to prices between now and 2012?**
Don McGarrigle, Energy Pricing Adviser, MEUC
- 10.30 **Developing your CRC Energy Efficiency strategy to please staff, customers and shareholders.**
Molly Warwick, Compliance Manager, Carbon Low
- 10.50 **What will be the impact of the new bribery and corruption law on your suppliers and consultants?**
Alexandra Underwood, Senior Associate, Field Fisher Waterhouse
- 11.10 **Unfair burden of energy taxes, levies and surcharges.**
Michael Roberts, Director, MCR Energy and Past President, Institute of Energy
- 11.25 Your questions and concerns
- 11.45 Networking and coffee
- 12.05 **Making sense of your Carbon Footprint – a ground-breaking visual approach to make invisible gases visible.**
Antony Turner, Managing Director, CarbonSense Ltd
- 12.25 Your questions and concerns
- 12.35 **No holds barred - Your opportunity to discuss the issues which cause you anxiety.**
Led by Eddie Proffitt, Gas Group Chairman and Hugh Conway, Electricity Group Chairman, MEUC
- 13.05 Lunch and visit to NEMEX

See over for Speakers' Biographies

THE SPEAKERS

Andrew Buckley cut his teeth in the industrial and commercial energy market surveying customers for their potential to switch to natural gas when North Sea supplies first came ashore. In 1976 he established the Energy Information Centre to provide market and pricing intelligence for business users and built up the business over twenty years. He also founded the publishing imprint, Energy Publications.

He was closely involved in the energy management campaigns which followed the first energy crises and in advising firms on the switch to competitive energy purchasing after privatisation. He also acted as the European Energy Adviser to a major Japanese utility for over ten years. Andrew has written several books on the subject and has been a regular speaker. He is a graduate in Economics and Geography from London University.

Hugh Conway has been Chairman of the Major Energy Users' Council (meuc) Electricity Group since the beginning of 2001. He was for a number of years responsible for energy supplies for the Rugby Cement Group. This included both energy purchases and the development of several projects aimed at reducing energy costs, including on site generation and CHP. His earlier career included 8 years in the steel industry in the UK and Australia as a plant engineer followed by a similar role in the non-ferrous industry before joining Rugby Cement in 1978. His other responsibilities include Chairmanship of the Brussels based European Cement Federation Solid Fuels Group.

Don McGarrigle is a Chartered Electrical Engineer by profession and began his career with John Brown Engineering in designing electrical power systems for Gas Turbine Power stations. He subsequently joined RTZ Technical Services in the project management of large cement and chemical plant expansions. On privatisation of the Electricity Industry in 1990, Don joined Castle Cement to advise them on the opportunities arising from the ESI privatisation programme.

He has been a regular contributor at industry conferences both in the UK and overseas and has published several articles on electricity purchasing and utilisation both in the national and international press. His speciality is in the implementation of flexible purchasing contracts for both gas and electricity.

Molly Warwick is a commercial property solicitor by background who worked latterly for Eversheds in Nottingham but joined the CarbonLow Group as compliance manager two years ago. CarbonLow is a carbon management consultancy with bespoke online carbon accountancy software. Molly's legal background has been useful in getting to grips with the complexities of the CRC Energy Efficiency Scheme although she thinks that there is much more to learn as the scheme rolls out this year.

Anthony Turner is the founder and Managing Director of CarbonSense, a company he set up to help organisations genuinely understand climate change and confront the challenges of moving to a low-carbon future. Since 2003 CarbonSense has provided strategic thinking, board and management engagement and training, and carbon analysis for leading corporations including BT, Thames Water, HSBC, TNT, Honda Formula One Racing, Belgacom and Telenor. CarbonSense has also worked with local communities, local government and government departments in the UK including an event in 2005 at the UK's HM Treasury entitled 'Carbon as Currency'. Antony is the co-inventor of the company's recently launched global carbon visualisation tool – the Carbon Quilt www.carbonquilt.org. In 2009 he taught the carbon / climate change module on WWF's One Planet Leader's course.

Michael Roberts is a Chemical Engineer who worked for Shell before joining PA Management Consultants as a general business consultant. Whilst there, he established a successful energy management division and became a Board Director. He is a Past President of the Institute of Energy, a former Chairman of the Eaga Partnership – now Eaga plc – who deliver the Warm Front programme, and a member of the Executive Council of the Parliamentary Group for Energy Studies. He has received an OBE for Services to Energy Efficiency.

Alexandra Underwood is a senior associate in the Fraud, Corruption and Asset Tracing Group at Field Fisher Waterhouse. Her practice includes complex cross-jurisdictional fraud claims and associated professional negligence claims. She is currently involved in advising clients on the impact of the new Bribery Act on their business processes. She is experienced in recovering assets, conducting investigations and obtaining and enforcing freezing orders, search orders and other injunctions, both in the UK and abroad. Alexandra is a regular contributor to the legal and trade press on corruption. Most recently in Utility Week and a series of webcasts for in house counsel on the topic. Alexandra is also a regular speaker at conferences on fraud and corruption issues. Alexandra is an active member of the Young Fraud Lawyers Association and the London Fraud Forum.

Eddie Proffitt spent most of his career with Pilkington Glass in various management positions culminating in that of UK Head of Procurement with specific responsibility for energy purchasing with an annual budget of over £50million (today's prices).

Eddie is Gas Group Chairman of the Major Energy Users Council which is an independent body representing a membership of companies and organisations with large annual energy consumption. Eddie also attends the Business Climate Change and Energy Group, which is hosted by the Department of Energy and Climate Change.

Away from energy Eddie has recently completed a five-year term as a non-executive director of a NHS Trust where he was involved in chairing a number of sub committees of the board.

MEUC EVENTS PROGRAMME FOR 2010

March: Regional Roadshows and Members' Meetings

- 10th - City of Manchester Stadium
- 11th - York, The Parsonage Hotel
- 16th - Heathrow, The Radisson Edwardian Hotel
- 17th - Central London, The Stationers Hall
- 18th - Birmingham, The National Exhibition Centre

April: National Energy Meeting at NEMEX

- 20th - Birmingham, The National Exhibition Centre

June: The MEUC Academy

- 15th - Central London
- 16th - Birmingham
- 17th - Manchester

September: National Customers' Meeting at The Energy Event

- 8/9th - Birmingham, Motorcycle Museum

October/November: Regional Roadshows and Members' Meetings

- 26th Oct - Central London
- 28th Oct - Birmingham
- 2nd Nov - Manchester
- 4th Nov - York
- 9th Nov - Thames Valley

December: National Annual Conference and Networking Reception

- 6th - Westminster Energy Conference, EEF, London
- Evening Networking Reception at the House of Commons

For further information on the above events please contact

**The Major Energy Users' Council
PO Box 30, London W5 3ZT**
